Program Overview

This comprehensive program offers talented mathematics students an intensive academic experience at Wycombe Abbey School Nanjing, combined with cultural immersion opportunities. The week-long residential program includes specialized mathematics instruction, assessment, and enrichment activities.

Parents may participate in an optional cultural and educational tour of Shanghai, running concurrently with the student program.

Academic Components

- Entry assessment on arrival to determine appropriate learning groups
- Daily mathematics instruction focusing on Olympiad-level problem solving
- Specialized sessions in algebra, geometry, combinatorics, and number theory
- Evaluation and feedback by qualified mathematics specialists
- Award ceremony recognizing outstanding achievement

Accommodation & Facilities

- Purpose-built boarding houses with 2/4 bedded rooms and ensuite facilities
- Supervised residential experience with 24-hour pastoral care
- Three meals daily with consideration for dietary requirements
- Access to campus facilities including sports grounds, library, and common rooms
- Secure campus environment with comprehensive safeguarding protocols

Key Outcomes

This program is designed to deliver measurable benefits for students and parents

For Students

- Enhanced mathematical problem-solving skills at Olympiad level
- Academic assessment and certification from Wycombe Abbey Nanjing
- Potential for scholarships and future study opportunities
- Cultural immersion and international perspective
- Development of independent study skills in a boarding environment

For Parents

- Understanding of Chinese higher education opportunities
- Insight into international boarding school education
- Cultural experience in Shanghai and surrounding areas
- Direct access to admissions team for future planning

Incentives & Recognition

- Students achieving second place in mathematics category eligible for complimentary summer camp placements in 2027
- Academic year scholarship consideration for students applying to Wycombe Abbey Nanjing
- Certificates of participation and achievement
- Academic references from mathematics faculty for University applications

Tigers Math China 2026

The package includes

- Lessons
- Award ceremony
- Accommodation
- Meal plan
- Excursions
- Transfer

Awards

Each category

I Place - Summer Camp 2027

II Place - Summer Camp 2027

III Place - Ipads

All participants will get certificates
